

Rudrabhishek Enterprises Geared to tap infra boom

Rudrabhishek Enterprises Ltd (REPL), a well-known New Delhi-based integrated urban development and infrastructure consultancy company, is in the process of entering the capital market with its maiden IPO (initial public offer) of 45.69 lakh equity shares at a price of Rs. 41 per share. The company, with a legacy of 25 years, offers an integrated range of services to deliver end-to-end consultancy solutions in diverse sectors. The diverse consultancy services offered by REPL include viability analysis, infrastructure services, urban planning and GIS, building area and design, structural design, project management consultancy and strategic marketing advisory.

Pradeep Misra

Promoted by Pradeep and Richa Misra, the company has designed and managed complex projects in sectors as diverse as real estate, retail, hospitality, healthcare and hi-tech cities, among others. It is also involved in the Central government's 'Smart City' initiative in Varanasi, Kanpur, Indore and Dehradun.

Pointing out that REPL is an ISO 9001:2008 certified organization empanelled with more than 30 government departments and agencies, Pradeep Misra, the Managing Director, adds, "The company has the privilege of serving a number of esteemed clients from the government, public and private sectors. Pan-India projects are handled from the company's branch offices located in Delhi, Noida and Lucknow and project offices in Varanasi, Indore and Kanpur. After consolidating its position in the South-East Asian region, the company is now aggressively eyeing the global market of infrastructure consultancy."

RICH LEGACY

Set up way back in 1992, the company has made rapid strides during the last 25 years. To begin with, it had an immediate objective of providing quality consultancy services in the areas of urban planning, building design ser-

vices and civic services planning. However, Mr. Misra soon realised that the age of fragmented services would not last long, and the company needed to have a holistic expertise that would cater to the integrated infrastructure development needs of its clients.

He, along with promoter and director Richa Misra and a crack team of consultants, engineers and managers, has put the infrastructure company on the fast growth track. With over 250 consultants, more than Rs. 210 crore worth of projects in hand and over Rs. 10,000 crore

worth of projects and investments being managed, REPL has evolved as one of the leading companies in the infrastructure arena. Besides, the company has already completed more than 300 projects in over 100 cities across India as well as around the globe.

With the government laying major emphasis on infrastructure development, REPL has chosen to tap the capital market and list on NSE Emerge, the SME platform of the stock exchange, to fund the execution of such projects and expand rapidly. The company recently received foreign direct investment (FDI) of Rs. 5 crore at an attractive valuation.

The company has put up a gratifying show on the financial front. Restated revenues (standalone and consolidated) on December 31, 2017 (not annualised), March 31, 2017, 2016 and 2015 were Rs. 34.44 crore, Rs. 33 crore, Rs. 37.36 crore and Rs. 38.44 crore respectively.

Restated net worth (consolidated) on December 31, 2017 (not annualised), March 31, 2017, 2016 and 2015 were Rs. 37.29 crore, 35.38 crore, 31.31 crore & 24.72 crore respectively.

With a view to taking advantage of the infrastructure boom, the company is exploring new horizons, new associations and new opportunities to script newer success stories in the years to come.
