CMD MESSAGE

Dear Investors,

We have recently announced annual financial results of REPL for FY 2018-19. The numbers on all parameters gives us immense satisfaction for which we extend our gratitude to our investors, clients, associated and investor community. The company has maintained its trend of continuous growth both on top-line and bottom-line figures. Our work orders have been substantially increasing due to the large infrastructure consultancy projects that have been awarded to REPL group companies. Recently we got the project management consultancy of fifth Smart City Project of Moradabad, preceded by the Smart Cities of Varanasi, Indore, Kanpur and Dehradun.

For the current financial year we have been working on the growth strategy focused on expansion through sector diversification, reaching out to new territories and making new strategic alliances. All our efforts are aligned to maximizing the value of our investors and making the meaningful contribution to the infrastructure growth of the nation. We sincerely hope to receive your continued support in our endeavor.

Sincerely,

Pradeep Misra
CMD - REPL
