

# Views of Mr Pradeep Misra, CMD, Rudrabhishek Enterprises Limited (REPL) on integrated infrastructure initiatives by Prime Minister on Independence Day speech

By The Property Times News Bureau - August 19, 2020

**New Delhi, August 19, 2020:** In today's Independence day speech the PM laid clear emphasis on the development of integrated seamless multimodal infrastructure for the nation. Not only this will increase the infrastructure spending but also will make sector operationally more efficient.

On one hand integrated infrastructure will save time and cost, it will help minimise losses and extend the reach of quality infrastructure to the remotest parts of the country on the other.

Integrated infrastructure will help services like healthcare, electricity, education etc become available for every citizen of India. National

Infrastructure Pipeline Project is going to be the

next big thing of already running Smart Cities programs in country. We welcome the Hon'ble PM's announcement on comprehensive roadmap for integrated infrastructure program.
