

OMBADC appoints REPL to develop edu infra in Sundargarh

POST NEWS NETWORK

Bhubaneswar, Sept 21: Odisha Mineral Bearing Areas Development Corporation (OMBADC) appointed Rudrabhishek Enterprises Ltd (REPL) to provide consultancy and prepare Detailed Project Report (DPR) for development of educational infrastructure for 93 schools in Sundargarh district in the state.

REPL will prepare the comprehensive design and development plan for each school. It includes survey and developing project plan, understanding the site conditions to prepare the specific plans, comprehensive architectural, structural and MEP services designs, and DPRs as per the OPWD Codes with cost estimates.

The estimated cost for developing the education infrastructure for each school is ₹1.5 crore. The project will include construction of new buildings, hostels, kitchen and dining hall, library, science labs, smart class & furniture, approach road, storm drainage system, anganwadi centre, landscaping etc.

Each school will be designed as eco-friendly to limit the direct and indirect impact on environment and give a healthy indoor environment. In an official statement, Pradeep Misra, CMD-REPL said, "Improving the quality of education is the key to growth of the country.
