

## REPL awarded JJM project in Burdwan

### CHRONICLE NEWS SERVICE

**KOLKATA:** Rudrabhishek Enterprises Ltd. (REPL), a leading Delhi-based Infrastructure Consultancy Company, has been appointed by the West Bengal PHE Directorate to prepare detailed project report (DPR) for the piped water supply scheme in Katwa Sub-Division of Purba Burdwan district. This will cover 7 schemes spread across 98 villages.

Through this project, the government envisions providing safe and adequate water supply to people in the Katwa Sub-Division, thereby considerably improving health and living conditions. The focus is on ensuring a regular water

supply in adequate quality and prescribed quantity. REPL will prepare and design Pipe Water Network System by carrying out the route survey using Differential Global Positioning System (DGPS). It will also draw a layout plan of the water distribution and transmission network in the region.

Mr. Pradeep Misra, CMD-REPL said, "JJM (Jal Jeevan Mission) is major flagship programme with ambitious target of providing tap-water to all households in rural areas by 2024.

Our focus will be to closely follow the overall programme guidelines and incorporate the key elements such as sustainability and community centricity.
