Gwalior Municipal Corporation (GMC) has appointed Delhi-based infrastructure consultancy company, Rudrabhishek Enterprises Ltd., also known as REPL, to prepare Detailed Project Report (DPR) for various projects of water supply, sewerage/sanitation, and rejuvenation of water bodies for Gwalior Municipal area under Jal Jeevan Mission (Urban).

Through this project, the government envisions providing universal coverage to water through rejuvenation, rehabilitation and augmentation of water supply systems and wastewater management. REPL will prepare the DPR, including analysis of existing situation of the water supply and sewerage system in the area. It will also prepare City Water Balance Plan (CWBP) and develop the City Action Plan (CAP) for rehabilitation of the existing water supply systems to achieve functional tap connections in all the urban households.
